Skills

Frontend : Javascript, Reactjs, CSS, HTML

Backend: Node js , Express js

Databases: Mongo Db, My Sql

Work Experience

Northscape Enterprises | Node js Developer   **January 2024 - June 2024**
- Developed and optimized **RESTful APIs** to ensure scalability and performance.
- Implemented secure **authentication systems** using JWT.
- Collaborated with the front-end team to integrate **APIs** with client-side applications.
- Worked with **MongoDB** for database design and data management

Pixen X | Web Developer   **January 2023 - June 2023**
- Developed **Full-Stack Application** tailored to client needs.
- Delivered **Scalable** and maintainable solutions for diverse projects.

Al Ain | Web Developer   **January 2022 - June 2022**
- Focused on building scalable, secure, and user-friendly web solutions.
- Collaborated with cross-functional teams to integrate various systems and APIs.

Projects

Investro | Trading Platform
Tech Stack:React js , Chart js, Express js , Mongo DB
A trading platform where the admin creates trade signals visible to users. Users can confirm trades, deducting the amount from their wallet. Admins update trade results, reflecting on user dashboards.
- Integrated OAuth 2.0 and JWT for robust and secure authentication mechanisms.
- Designed a secure wallet system with APIs for transactions and trade amount deductions.

Vendor-Based Web App for Kashmir Tourism
Tech Stack:React js , Express js , Mongo DB , My Sql
A MERN stack application for registering vendors in the Kashmir tourism industry. Vendors list their products and manage leads through a CRM dashboard.
- Built a custom CRM system allowing vendors to receive leads and manage inquiries directly on their dashboards.
- Implemented a lead-tracking system for vendors, enabling efficient follow-ups.

Get Doctor
Tech Stack:React js , Express js , Mongo DB
Built an online platform for patients to book consultations with doctors from home.
- Enabled patients to search for doctors by specialization and availability, with an intuitive appointment booking system.
- Allowed doctors to manage profiles, update availability, and view patient records.

Education

SSM COLLEGE OF ENGINEERING   **2020 - 2024**
- BTECH CSE
